Course Outline
Indian Institute of Management Calcutta

Programme : MBA (PPM-265)

Name of the Course: Indian Business History

Core / Elective: Elective Cap (for Elective): 45

Credit: 3

Academic Year & Term: 2026-27, Term VI

Course Coordinator: Rajesh Bhattacharya

Email: rb@iimcal.ac.in

Instructor: Rajesh Bhattacharya (Sessions: 10)

Affiliation: Public Policy and Management Group,
Indian Institute of Management Calcutta

Email: rb@iimcal.ac.in

Instructor: Rajshekar Basu, Visiting Faculty (Sessions: 10)

Affiliation: Department of History,
University of Calcutta

Email: rajsekharbasu2001@gmail.com

Introduction to Course /Course Description

This course is designed as an introduction to a history of Indian business in the modern period—i.e. the period covering India's transition to the modern industrial economy. The colonial period was crucial to this transition, as contact with European business unleashed many forces that transformed India's traditional businesses and the activities of traditional Indian business communities, including their transformation into industrial capitalists. This transformation was neither smooth nor linear, always involving both collaboration and conflict between Indian entrepreneurs and business groups with, first the colonial state and then, the independent Indian state--a complex relation shaped by the changing domestic and international contexts. The course will take the student through the vicissitudes of this journey through the early and late colonial periods as well as the planning and post-reforms periods of independent India, right up to the present. The motivation behind this course is not to study history for its own sake, but to understand the present. The lectures would emphasize the contemporary relevance of specific historical experiences

through examples. The broad scope of the course requires us to be selective with respect to major events and important case studies covered in the course and required readings. Interested students are encouraged to go through the list of references for further reading.

The first part of the course traces the modern economic and political history of India—the period from colonization of India around the mid-18th century to early years of the 21st century—that helps us understand the emergence of modern business in India, their journey through colonial and post-colonial periods and the challenges they face currently. It has been noted that industrialization is the most important process driving the economic fate of countries—the most developed nations today are also highly industrialized ones. Therefore, the course places particular emphasis on the nature of industrialization in India, its successes and failures. The course is motivated by the fact that among developing nations, India exhibits a peculiar pattern of development that is different from the stylized path traced by successfully developed economies. The challenges and possibilities that businesses and policy-makers face in India are shaped by India's unique history—of deindustrialization under colonial rule and attempts at rapid industrialization in independent India, through the largest exercise of Planning outside the socialist world and the only one in a democratic multi-party political context, to be replaced by gradualist, but firmly established process of liberalization since 1990s. In the second part of the course, the trajectory of the industrial development in India is analysed in terms of the interaction between political and economic processes in each phase of history. Even though the economic reforms of 1991 was a watershed in Indian economic history, contemporary research shows that India's current pattern of growth is also a product of historical forces, including the policies chosen during the planning era of 1950s, 1960s and 1970s. The course emphasizes the continuing impact of institutional changes, both during the colonial period and in the early decades of planning in independent India, on economic performance of India today—thereby making a case for historical understanding of contemporary challenges and opportunities that India faces.

Course Objective and Key-takeaways from the course

The objective is to understand the irreducible complexity of organizing business in society and to highlight the importance of strategic decisions by business actors in response to changing business context. The course allows us to understand the impact of policies of the colonial State, of economic planning in independent India and of economic reforms since 1990s on the evolution of Indian business. The treatment of the course content is interdisciplinary to provide a nuanced and critical understanding of the unique history of Indian businesses.

The key-takeaways from the course are the following:

1) Learning a theory that connects history to current outcomes via role of durable institutions
2) Applying that theory to the Indian case, explaining current economic performance in light of historically developed institutions
3) Appreciating that each country must craft its own unique path of development and there is no one single model of capitalist development that can simply be imitated
4) Appreciating the criticality of the business-government-society interaction in shaping the unique trajectory of capitalism traced by any country—India, in this case
5) Understand current challenges and opportunities faced by Indian businesses in light of historical trajectory

Programme Level Learning Goals (7)

Please map your course with Programme Level Goals **. Please list the learning goals along with specific objectives that are relevant for your course. The broad learning goals for the IIMC's PGP are listed below; choose the goal/s that are relevant for your course. In other words, even if you don't explicitly "teach" the topics listed below, it is likely that one or more of them are inherently addressed in your course. For example, if you encourage class participation or have presentations, the goal of "Ability to Articulate" would be relevant; if you cover global issues, the goal of "Acquiring Global perspective' would be relevant; if you require case analysis and case reports (be it teams, or individual students), the goal of "critical thinking& problem solving'' would be relevant; if you have any team-based assignment/s, the goal of " leadership qualities " would be relevant; and if ethics is covered in any form in the class, the goal of "acquiring ethical values " would be relevant. Mapping of course with Goals is a process of combining inputs & assessment.

Learning Goals

1. **Possess state-of-the-art knowledge of theory and practice in all functional fields of management and the ability to think critically, and apply them to diagnose and find solutions to organisational problems, even in unfamiliar or uncertain situations**

Learning Objectives
Our students would be able to : a. Attain theoretical and practical understanding of the functions and processes involved in managing an organization b. Develop critical thinking ability through analytical treatment of important contemporary problems and issues c. Acquire the ability to design approaches and use relevant models and tools to analyse situations and solve practical business problems d. Acquire the ability to persuasively recommend managerial solutions issuing from the process of decision analysis applied on managerial situation/s e. Acquire the ability to present a structured analysis of managerial situation/s using various strands of interpretations

2. Develop and apply ethical values to analyse and solve organisational problems

Learning Objectives
Our students would be able to : a. Understand the realm of ethics (morality, values, ethos) and its importance to society b. Understand the issues of ethical importance specific to the domain of business c. Understand the role of manager/leader as an ethical individual and as a professional d. Understand the need and importance of institutionalizing Ethics within the organization e. Develop an understanding of corporation's duty to all the stakeholders f. Acquire the ability to appreciate the necessity of ethical practices for sustainable growth and profitability

3. Develop a global perspective that is built upon knowledge of economic, technological, regulatory and political forces that are shaping a new international order in the 21st century

Learning Objectives
Our students would be able to : a. Familiarize with global factors/phenomenon affecting the business scenario b. Acquire the ability to understand and comprehend issues and practices prevalent in the international arena c. Develop competence in analysing changes in international and domestic environment d. Respond to such changes through appropriate organizational decisions

4. Develop their capacity to articulate their thinking and ideas through verbal and written communications, at a professional (manager/consultant) level and to deliver the same

Learning Objectives
Our students would be able to : a. Acquire the ability to organize the thought process b. Demonstrate understanding of main points

Learning Objectives
c. Acquire the ability to articulate the findings in a coherent and structured format to build a managerial case analysis d. Acquire the ability to customize messages/ solutions for diverse managerial situations e. Acquire the ability to deliver a professional quality formal presentation by exhibiting clarity and appropriate pace, coherent structure, credibility, effective use of visual aids, appropriate body language

5. Be able to appreciate the dynamics of Information Technology acquisition and absorption by present day business organizations and develop ability to use modern IT enabled decision support tools for improved understanding of business

Learning Objectives
Our students would be able to : a. Acquire the ability to learn various IT-enabled analytical tools, techniques and methods for solving problems b. Acquire familiarity of methods for comparing different state-of-the-art computing platforms c. Acquire the ability to use appropriate analytical techniques in a case setting to identify possibilities of deploying Information Technology for competitive advantage d. Acquire competence in use of IT tools in modelling managerial decision making situations

6. Acquire capacity to apply their professional knowledge and skills to diagnose and resolve business problems in actual organizational settings

Learning Objectives
Our students would be able to : a. Acquire the ability to identify organizational problems in both real life settings and through simulated situations b. Acquire the ability to interpret and apply knowledge of concepts c. Acquire the ability to design appropriate responses to solve identified problems by using appropriate tools, techniques & framework taught in courses d. Acquire the ability to apply structured analytical thinking to solve an organizational problem

7. Acquire the leadership qualities and the competence needed for leading organizational change

Learning Objectives
Our students would be able to : a. Understand the theories of leadership b. Understand the theories of organizational change c. Demonstrate understanding of complex human issues arising from the implementation of change d. Understand individuals' and groups' behavior and motivation

IBH :Course Mapping of Learning Goals

	Goal 1	Goal 2	Goal 3	Goal 4	Goal 5	Goal 6	Goal 7
	Critical Thinking a, b, c, d, e	Acquiring Ethical Values a, b ,c ,d, e ,f	Acquiring Global Perspective a, b, c, d,	Ability to Articulate a, b, c, d, e	Technological Competencies a, b, c, d,	Problem Solving a, b, c, d,	Leadership Qualities a, b, c, d,

International Components in your course (if any):

The Course traces the history of modern Indian businesses and uses a comparative framework at several places. For example, when discussing traditional Indian business communities in the colonial period and evolution of Indian business groups in contemporary period, the nature of their emergence and evolution is discussed in comparison to other countries. During the colonial period the course covers the impact on Indian industries of incorporation into world trade networks under the colonial rule. It also discusses the foreign exchange issue leading to and after independence, involving India-Britain relation. During the era of state-regulated development, the course discusses multi-nationalization of Indian firms as one distinct response to the regulatory regime. Finally, alternatives to industrialization via large-scale, Fordist production model is discussed with reference to global discourse on and evidence of flexible accumulation, with case studies from India critically examined in light of the global findings.

Pre-requisites: None

Required Text Book(s): None

Recommended Text Book(s): None

Course Pack Distribution to students: As mentioned in the Session Plan

Additional audio-visual materials are uploaded in the course website.

Technology enabled learning component for your course
(You may include if required)

Session Plan

Session	Topic	Intended learning outcome	Required Readings
1	Introduction to the Course: History and Current Economic Performance: The great divergence in industrialiation and per capita income, reversal of fortune, Institutions and growth	The student should be able to understand world development in comparative and historical context. The student will learn about fundamental determinants of growth. The student will be theoretically learn to connect history to current outcomes. The student will be introduced to lessons from business history	Journal Article: Acemoglu, Daron, "Root causes" Finance & Development 40.2 (2003): 27-43
2	The Colonial Indian Economy:Phases of colonization in India;The changing forms of the "Tribute";Colonial Trade pattern;Deindustrializati on	The student will learn to critically evaluate the impact of colonial rule on Indian industries, particularly the impact of tribute as an exttactive mechanism and the resultamt colonial pattern of trade. The student will be introduced to India's "deindustrialization" under colonial rule	Journal Article: Habib, Irfan, "Colonization of the Indian Economy, 1757-1900" Social Scientist 3.8 (1975): 23-53
3	The Rise of Modern Industry in Colonial India: Indian business communities and initial accumulation of capital; Emergence of modern industries in Bombay, Calcutta and Ahmedabad; Social and economic background of pioneer industrialists in India in comparison with the Western experience;	The student will learn about the difference in pattern of emergence of modern industries in different parts of India and connect them to the current industrial performance in each of these parts. The student will learn that each country and in fact each region within a country has its own set of factors that contribute to the emergence of industries in distinct ways.	Journal Article: Oonk, Gijsbert, "The Emergence of Indigenous Industrialists in Calcutta, Bombay, and Ahmedabad, 1850–1947." Business History Review 88.01 (2014): 43-71.
4	Applying the Institutions theory to India: Land revenue Settlements under the British; Commercialization of agriculture and its consequences; Land Reforks in Independent India; Applying the Institutions theory to India's land reforms: Comparison with East Asia and China	The student will learn to critically apply the general theory developed in Session 1 to India's case, specifically in terms of the institution of property rights in land set up under colonial rule. The student will be introduced to comparison of India with East Asia in land reforms,	Book Chapter:Bhalla, G.S., *Indian Agriculture Since Independence*, Delhi: National Book Trust, 2007, Chapter 3. Pages 16-25. Journal Article: Griffin, Keith, Azizur Rahman Khan, and Amy Ickowitz. "Poverty and the Distribution of Land." Journal of Agrarian change 2.3 (2002): 279-330.

5	Indian Economy at the time of independence: Nationalist Critique of laissez faire and economic drain under Colonial rule;Pattern of economic growth in late colonial India; Maturation of Indian industries and late colonial policies; Genesis of the Idea of Planning; the Bombay Plan of 1944	The student will learn how nationalist politics was shaped by contemporary events and past history, i.e. nineteenth century industrialization of countries like Germany, USA. The student will learn about the connection between politics, society and business in producing a particular policy outcome—Planning in this case. The student will learn about the intellectual history of the idea of Planning in India. The student will also learn how global intellectual currents and major global events influence policy preferences in a country—e.g. adoption of Planning in independent India.	Book Chapter: Chattopadhyay, Raghabendra,' "Indian business and economic planning (1930-56)" in DwijendraTripathy (ed) Business and Politics in India: A Historical Perspective, Delhi: Manohar, 1991: 308-50.Pages 308-317 Journal Article: Kudaisya, Medha. "'A Mighty Adventure': Institutionalising the Idea of Planning in Post-colonial India, 1947–60." Modern Asian Studies 43.4 (2009): 939-978. Kudaisya, Medha. "'The promise of partnership": Indian business, the state, and the Bombay plan of 1944." Business History Review 88.1 (2014): 97-131.
6 & 7	Rise and Fall of Agency Houses and the Managing Agency System	The student will learn about the early colonial rule and the fate of indigeneous merchants in different parts of India; the origins of the agency houses and their failure in the early nineteenth century Calcutta, bi-racial firm and early entrepreneurial initiative and the emergence and naturation of the managing agency system and its decline in the twentieth century	Required Reading Journal Article: Roy Tirthankar, "Trading Firms in Colonial India", Business History Review, Spring (2014); 20-38; Kling B.B, "The Origin of the Managing Agency System in India" *Journal of Asian Studies,* ,26, 1, (1966); 37-47; For Reference Tripathi, D and Jumani J, *The Concise Oxford History of Indian Business,* Oxford University Press, New Delhi, (2007); 20-36, 111-125;
8 & 9	The Rise and Maturation of Indian Industry in the Colonial Period: Case Studies: Scindia Shipping, Tata Steel	The student will learn about the rise of Indian industry in Western India- Profits from Opium trade and the rise of cotton textile industry in the second half of the nineteenth century. British domination of industry in Eastern India, Marwari Industrialist in the early twentieth century; the impact of the two world wars and the Great Depression on the Indian industry, Swadeshi Enterprises and challenges to British domination of business.	Required Reading Journal Article: Broeze, Frank, "Underdevelopment and Dependence: Maritime India during the Raj", *Modern Indian Studies*, 18, 3,(1984);448-455; Book - Ashok B. Desai, *The Rise of the Modern Parsi Enterprise,* Indian Council For Historical Research, New Delhi, (2013);2-24; For Reference Kudaisya M. (ed.) *The Oxford India Anthology of Business History,* Oxford University Press, New Delhi, (2011);225-234, 258-

			281; Lala R.M, *The Romance of Tata Steel,* Penguin Viking, (2007), Chapter 1, Man of Destiny
10 & 11	Business Communities in the Colonial Period: Parsis, Marwaris and Chettiars	The student will learn about some dominant business communities in colonial India- Parsis, Marwaris and Nattukottai Chettiars; the reasons behind their early success and their sustenance; the concept and signifance of business community in the development of modern business	Required Reading Journal Article: Goswami Omkar, "Sahibs, Babus and Baniyas: Changes in Industrial Control in Eastern India, 1918-1950" *Journal of Asian Studies,* 48, 2, (1989); 289-309; Rudner David, "Banker's Trust *and the* Culture of Banking among the Nattukottai Chettairs of Colonial South India", *Modern Asian Studies,* 23, 3 (1989); 417-458; For Reference Kudaisya M. (ed.) The Oxford India Anthology of Business History, Oxford University Press, New Delhi, (2011);122-130, 135-158
12 & 13	The Bazaar economy	The student will learn about indigenous capital and the bazaar economy- between traditional subsistence economy and the modern European enclave economy; traditional commission agencies and financial instruments , Hundi as a method of transaction; the contemporary relevance of the bazaar economy.	Required Reading Journal Article: Ray Rajat Kanta, "Asian Capital in the Age of European Domination: The Rise of the Bazaar, 1800-1914", *Modern Asian Studies,* 29, 3 (1995); 469-470, 497-502 and 522-554; For Reference, Ray Rajat Kanta, " The Bazaar: Changing Structural Chracteristics of the Indigenous Section of the Indian economy before and after the Great Depression", *Indian Economic and Social History Review,* 25, 3, (1988); 263-318.

14 & 15	The Federation of Indian Chamber of Commerce and Industry and Indian Politics, 1940s-1960s	The student will learn about the business influence in India: Political culture and the world of business, the organisation and functioning as an interest group and the connections between business and the ruling elites	Required Reading Journal Article: Stanley A. Kochanek, "The Federation of Indian Chambers of Commerce and Industry and Indian Politics", *Asian Survey* 11, 9 (1971); 866-880; Roy Himanshu, "Linguistic Nationality, Business Chambers and Federalisation in India", *Indian Journal of Public Administration,*61, 3, (2017); 533-541; For Reference Markovitz Claude, "Indian Capitalists and Imperial Preference in the 1930s: A Case Study in the Ambiguities of Economic Nationalism", 39, (1978), 634-645
16	Planning in Independent India (1951-1961): The Nehruvian vision; The Mahalanobis Four-Sector Plan Model; The Plan framework and industrial policies; Private Business in National Plans in independent India	The student will learn about: Eonomic thinking leading to and after independence, about planning; the conceptual division of the economy into sectors and the place of private industry in economic planning. the trajectory of traditional big business groups during the Nehru era and collaboration between the Indian state and business groups. The Student will appreciate how the context shaped the fate of Indian businesses and individuals and individual business firms adopted various strategies for he firm's success in the colonial period	Book: Tripathi, D. and J.Jumani. The concise Oxford history of Indian.business.Oxford University Press, 2007. Pgs 155-181 Journal Article: Mukherjee, Aditya. "Indian Capitalist Class and Congress on National Planning and Public Sector 1930-47." Economic and Political Weekly (1978): 1516-1528.
17	From Planning to Liberalization: Command & Control (1969-80) and License-Peemit Raj: Export Pessimism and its impact on industrial policy; The economic and political impact of low growth; Bank Nationalization; Monopolies & Restrictive Trade Practices Act 1969; The Foreign Exchange Regulation Act 1974;Response from private Business; Change in industrrial polcies in the 1980s and reforms of 1991s. What changed and what didn't; Evolution of Indian Business Groups; Social	The student will learn about performance of the economy under Five-year planning exercise, with reference to overall growth, land reforms etc. The student will gain a nuanced understanding of the much-debated "command and control" economy of the 1970s.The student will learn how policy and economic performance affected each other	Book: Kudaisya, M. (ed) The Oxford India Anthology of Business History, Oxford University Press, New Delhi. Pg 381-405 Journal Article: Kochanek, Stanley, "Regulation and liberalization theology in India." Asian Survey26.12 (1986): 1284-1308. Book Chapter: Khanna, T., and K. Palepu. "The evolution of concentrated ownership in India: broad patterns and a history of the Indian software industry." in Morck, R.K., A history of corporate governance around the world: Family business groups to professional managers. University of Chicago Press, (2005). 283-324.

	Origins of India's new Capitalists		Working Paper: Damodaran, Harish. Banias and Beyond: The Dynamics of Caste and Big Business in Modern India. No. 08-04. CASI working paper series, 2008.
18	Project Presentations: Different topics on Indian Business History	The Student will learn about: • Analyzing a particular business firm's decision from historical perspective • A particular business leader's decisions in a given context • The evolution of a particular sector or business community • The impact of particular policy regime on businesses • Learn how to think critically about business-in-society • Make effective presentations and clear communciation	
19	Project Presentations: Different topics on Indian Business History	The Student will learn about: • Analyzing a particular business firm's decision from historical perspective • A particular business leader's decisions in a given context • The evolution of a particular sector or business community • The impact of particular policy regime on businesses • Learn how to think critically about business-in-society • Make effective presentations and clear communciation	
20	Student presentation plus summing up	Student will be asked to refelct on the lessons from Busienss History	Journal Article: McCraw, Thomas K. "Teaching history courses to Harvard MBA students: Building enrollment from 21 to 1,300." Business and Economic History 28.2 (1999): 153-162.

** Faculty should endeavor to provide as much detail on session-wise topics / readings in the suggested format.
